ABOUT KANAKAVEDA

KANAKAVEDA India's 18-year strong journey has been underpinned with our continued endeavor to deliver world-class Services through our greatest asset, consumers (Patients), these are clinically tested formulations.

Now, in the wake of the current global health crisis and with self-care becoming the new essential, our strategy has proved to be more relevant than ever. Our focus lies in strengthening nutrition products such as Kanakaveda Amla, Kanakaveda Gudmar, Kanakaveda Brahmi, Kanakaveda Kanak Raksha, Kanakaveda Medora Plus, Kanakaveda Immunity Plus. Health Supplements are very effective such as Kanakaveda Ashwagandha plus, Kanakaveda Kanak Grow well.

Kanakaveda Superfood Turmeric Ashwagandha Milk Latte Mix, Kanakaveda Turmeric Classic Latte Mix
Golden Milk powder.

We know that plant-based compounds play a crucial role in nutrition. Kanakaveda work led to the development of unique health supplements, Neutaceutical which could fill the nutritional gaps in a person's regular diet.

Phytonutrients are the compounds found in plants that offer a range of health benefits and promote healthy ageing. They play important roles in supporting immune system, brain, heart, bone, joint and eye health - as well as supporting energy production.

Kanakaveda's products help to fill the nutritional gap which arises due to inadequate intake of fruits and vegetables that one needs.

Kanakaveda follows best-in-class good manufacturing practices (GMP) at its manufacturing facility. We use a stringent quality control process to ensure top quality products. Throughout the product cycle, there is zero direct human contact. The integrated quality assurance approach helps in controlling and eliminating contaminants and particulate matter, making sure we deliver world-class products.
